Self-drive rentals

100%

Ride hailing

40–45%

2025 (CAGR)

**Electric Auto**

Goods mobility

14–16%

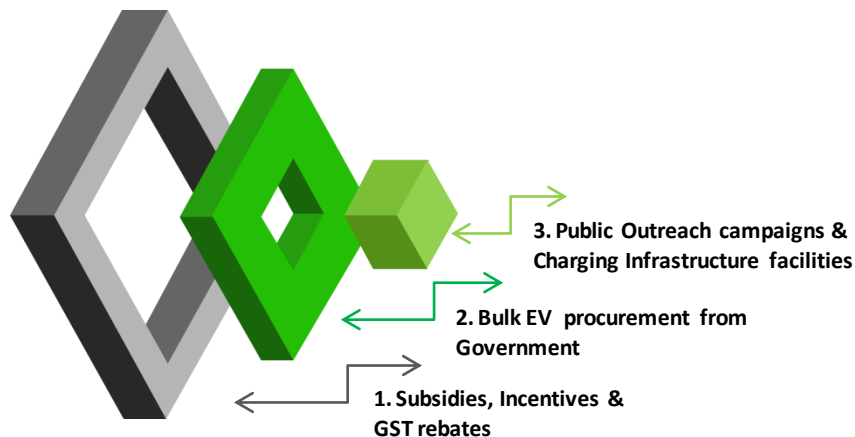

Passenger  
mobility

40–45%

# Government encourages shift to electric vehicle

## Key Initiatives by the Government to push the EV revolution in India

- ✓ GST on EVs is reduced from the existing 12% rate to 5% as against the 28% GST rate with cess up to 22% for conventional vehicles.
- ✓ The Ministry of Power has allowed the sale of electricity as a 'service' for the charging of electric vehicles. This will attract investments into the charging infrastructure.
- ✓ The government has granted an exemption to battery-operated transport vehicles and transport vehicles that run on ethanol and methanol fuels from the requirements of the permit.
- ✓ The government has proposed the exemption of registration fees for battery-operated/electric vehicles to promote the use of eco-friendly vehicles in the country.
- ✓ The Ministry of Road Transport and Highways has allowed the age group of 16-18 years to obtain driving licenses to drive e-scooters.

## Our Vision

We at EV Spare Hub firmly believe in making India as leading EV manufacturer and fastest adopting nation in the world. We would like to do our bit by introducing our exclusive 3S stores across India. Our Vision is to become the most aspiring and accomplish brand into ev industry and achieve a significant no of franchise and dealership across India and away.

# Our Mission

Our mission is to create an eco system for EV vehicle manufacturer and component manufacturers to work and strengthen the industry towards faster and sustainable business growth in EV Industry. We are committed to our dealers and franchise owners to provide best in class infrastructure, machines, tools , training along with technology driven solutions to server the customer at its best.
